PT-POS301GWRF-OT

Product Overview

PT-POS301GWRF-OT is an outdoor rated switch speciall designed for exterior, complex backhaul and networking applications, special scenarios, like highway side, exurb, etc.

Enclosed in a IP66 Reflective metal case with a sealing that gasket passes tension, bearing, corrosion, and aging test for IP66 applications. Pass salt spray resistance test Including 1 AC input port, 1 SFP port and 2 PoE output ports with 6KV (10/700us) surge protection, provides 55Vdc, 1.1A power for remote PDs. It supports 10/100 /1000Mbps of data speed.

Easily to install with installation kit (Sold separately), no need to open the equipment.

Designed for outdoor applications. It works with wide input voltage of 100-240Vac and operates under -40℃ to +65℃. Equipped detecting chip inside, which will detect and classify PD before powering it. It will not provide power until a standard-compliant PD is detected.The effective distance is 100 meters over Cat5e/Cat6 cables.
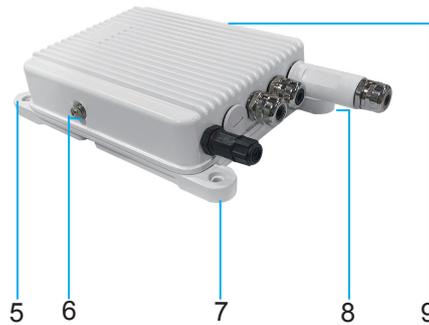

It is compliant with IEEE802.3bt standard and is also compatible to use with any IEEE802.3af/at standard equipments, such as wireless APs, network camera, VoIP phone, base stations, and other high power Ethernet terminals.
